The screenshot shows a Microsoft Internet Explorer window titled "Confidence Test Configuration". The address bar indicates the URL is "http://masanell-w2k:1741/st.html". The main content area contains several configuration forms. Handwritten annotations with numbers (~322, ~324, ~326, ~328, ~330, ~332) are overlaid on the screen. The first form is for "Cisco Unity" with fields for "Add Test", "Modify Test", and "Delete Test". The second form is for "Confidence Test" with a dropdown menu set to "Unity Message Waiting Indicator Test". The third form is for "Caller" settings, the fourth for "Recipient" settings, and the fifth for "Voice Mail" settings. Each form has a dropdown for "CCM" and input fields for "MAC Address" and "Extension Number" (with a note about the format: "Format: xx-xx-xx-xx-xx-xx or xxxxxxxxxxxx"). The "Voice Mail" form also includes a "Password" field and an "Add" button. At the bottom left is a "Done" button, and at the bottom right is a "Local intranet" icon.
